Introductions of Harlan P. Kelsey

In over half a century devoted to the discovery, growing and dissemination of desirable ornamentals, especially those of the Southern Appalachian Mountains, Harlan P. Kelsey has introduced some of America's most outstanding garden treasures. One of the most famous of these is the Carolina Hemlock, (*Tsuga caroliniana*) of which the late Prof. Sargent wrote: "The handsomest conifer we can grow in New England." At Kelsey-Highlands Nursery you will find the largest supply of perfect nursery-grown specimens. Notable Harlan P. Kelsey introductions are

Carolina Hemlock
Kelsey Catawba Rhododendron
White Carolina Rhododendron
Prostrate Fraser Balsam Fir
Alleghany Sandmyrtle
Oconeebells (*Shortia*)
Mountain Silverbell
Kelsey Crabapple
Kelsey Pygmy Dogwood
Southern Bushhoneysuckle
Kelsey Locust
Carolina Lily
Grays Lily
Rose Trillium
Korean Chrysanthemum
Korean Chrysanthemum Hv Jane Kelsey
Pinkshell Azalea and others.

Mass plantings of Rhododendrons, Mountainlaurel and Andromedas, with "filler" or "edging" plants, such as Leucothoe, Scotch Heather, Rose Daphne and Sandmyrtle, are very desirable and probably show these broadleaf Evergreens at their best. Such ground covers as Bearberry, Canby Pachistima and Japanese Pachysandra carpet the shady places luxuriantly.

HARDY HERBACEOUS PERENNIALS

In this list will be found a collection of hardy herbaceous perennials that will give a good succession of bloom from early Spring until late Autumn. Nearly all are of easy culture.

KELSEY'S HORTICULTURAL AND LANDSCAPE SERVICE

Customers of Harlan P. Kelsey, Inc. will find our various branches of service of real value throughout the year. Some special features of this service are described below.

1. **Renovation of Gardens and Plantations.** Overgrown or run down gradens can often be improved immeasurably by readjustment, pruning, fertilization, the addition of a few plants, etc. Let us help you make your garden more interesting and enjoyable.
2. **Hedges, Windbreaks and Screens.** The growing of fine material for evergreen and deciduous hedges, windbreaks and screens is a specialty at Kelsey-Highlands Nursery. For protection from harsh winds, for masking unsightly views and to insure privacy the larger screens are often invaluable. Lower hedges and borders are pleasing essentials in many garden designs. We will gladly submit recommendations and quotations for individual problems. A far wider list is available for these uses than is generally supposed.
3. **Moving Large Specimen Trees.** Our tree moving equipment is especially designed for safely transplanting large Evergreens or Shade Trees up to 1 foot in diameter. We have handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little disturbances to the root systems, largely eliminating risks.
4. **Plantings for Birds.** Birds add beauty and song to the gardens, and are of greatest value in curbing insect damage. Every garden should include plants that provide natural bird food and cover. We know what these plants are and will gladly help you plan their proper use. Birds are a constant joy and entertainment in the garden—a bird-feeding station in a corner of your garden dedicated to bird life will be a continuing delight.
5. **Landscape Service.** Harlan P. Kelsey, Inc., offers a skilled service devoted to the creation of finer landscapes. After a careful study of each individual problem we recommend a development which will fit the particular location so as to combine beauty and convenience with economy of construction and maintenance. Our background of sound designing and horticultural experience assures such results.

We are particularly interested in the small home grounds. Consult us freely whether your problem is large or small. No charge is ordinarily made for a preliminary conference at our office, or on the grounds where most effective results are ordinarily obtained. If, however, considerable time or distance is involved a minimum charge is made to cover costs.

TERMS AND CONDITIONS OF SALE

Nomenclature. "*Standardized Plant Names*," 1942 Edition, is authority for names used in this catalog.

Prices in this catalog cancel all previous lists and quotations and are subject to change without notice. Retail prices include packing, except for bulky or unusual shaped plants or when special methods are requested; prices are f.o.b. East Boxford, Massachusetts.

All Orders Are Accepted Subject To prior sale and to condition of stock at delivery date, under the following terms and conditions:

Grade. We supply a standard grade of stock. Unusual specimen material or plants specially selected by customers at the nursery will be charged for according to value, irrespective of the catalog list price.

We Warrant all plants to be true to name, full count, up to grade, and in good condition when shipped.

Rates. Lots of 5 and 25 of a kind and size will be furnished at the 10 and 100 rates respectively.

Plant Insurance. We do not guarantee the life of any plant purchased, as we have no control over after-treatment or weather conditions, and we will not replace stock without charge. On request, we insure stock planted by us for a specified period at a rate covering the estimated hazard. Such insurance however is void unless account is paid in full within 30 days from date of invoice, except when special arrangements are agreed to by us in writing.

Terms Cash with Order or satisfactory reference from unknown customers. Established credit accounts are due in 30 days from date of invoice. C.O.D. orders must be accompanied by one-third of the amount. Overdue accounts are subject to interest at 6 per cent.

Shipping Instructions should accompany order. State whether by Freight, Express, Parcel Post or Truck, and give exact destination. Otherwise we use our best judgment but assume no responsibility thereby. We deliver by truck all over New England and nearby states at reasonable rates. All goods are at purchaser's risk after delivery to forwarding companies in good condition. Claims for damage while in transit must be made against the delivery company.

Claims for errors must be made in writing within five days after receipt of goods. Any mistake or fault on our part will be gladly rectified. Stock delivered as per order and in good condition is not returnable.
